Background:

Grew up in Frisco with mom, dad and sister—Angie. He didn't like school and enlisted in the marines as opposed to going to college. Dropped his first name in basic. Family thinks he's still with the Marines on base somewhere overseas.

Reasons for joining: Responded to a call in the Arizona desert and had a UFO encounter. Saw a bright light slowly moving across the sky. He and his team walked toward it and it seemed to keep just ahead of them. Jacks tried to take a picture with his phone but the craft lights flashed twice and everything electronic fried. It shot away at speeds no military craft could match. Jacks
