Reasons for joining:

PROJECT THRESHOLD

PERSONNEL

Growing up in Idaho, twice he saw strange lights in the sky, which he now believes were not military vehicles. Also heard lots of lore on bigfoot and was always interested. In the army he kept asking question about those kinds of things.

Was approached by PT and after a period of watching his behavior, was offered a position. His quick thinking and resilience qualified him for one of the Direct Contact Teams and Talise Randall snatched him up.

Personal Traits: Bodi is laid back and relaxed. He likes hanging out in a bar during his free time and interested in finding the “right” girl. Likes IPA’s. He’s very healthy choosing foods but he eats a lot of steaks and protein. He doesn’t appear to freak out at the monsters.
