## Background:

Grew up in Bakersfield, California. Kali saw spirits, shadow people and lots of strange things. Her parents thought she just had a strong imagination and tossed it off. Her aunt came to visit one summer and noticed Kali being very skitterish. Turns out her aunt was psychic too and she stayed the summer, training Kali to protect herself and grow her abilities.

## PERSONNEL

This only fueled her love of the paranormal and strange. Her father was a professor of finance and wanted Kali to follow his path, but Kali ignored this. She tried college but didn't gel with it and turned to the police academy. She became an officer and continued online studies as well as advanced martial arts.

Reasons for Joining: Kalie worked as a police officer in Bakersfield California. While on patrol one evening they responded to a call of people being attacked by some kind of wolf like creature. They thought it was some guy in a costume, but he ran fast and low to the ground. Kali's partner got ahead of her and it turned and attacked, killing him. Kali emptied her revolver into it, but it ran off. Kali filed her report and was told to let it go but she started driving neighborhoods at night trying to track it down. Even with threats of suspension she kept hunting for it. On her sixth night out, she ran into a Project Threshold team who tracked the thing down and managed to kill it. She was spotted and P/T eventually contacted her to shut her up. Discovering she was psychic, they recruited her.

Personal Interests: Kali loves fringe lore like vampires, cryptids, missing people, faeries, etc., and studies on her own. Doesn't drink because it dulls her psychic abilities. Enjoys popcorn and movies and hanging out with her brother, enjoying the "normal" world whenever she gets leave.

Zodiac: Scorpio

### Family:

Sanjay—Father; Karishma—Mother

Brother—Kavi, 3 years younger

SO: None—tried to date but she is very confident and is irritated by the usual nonsense...She once got escorted out of a bar for taking down a guy who, when he found out she was interested in vampires, asked her if she wanted to go back to his place and watch the romantic vampire trilogy.

### Psych Evaluation:

Talents: Strong psychic. Can sense energy, and while she cannot actively read minds or use telepathy, she does pick things out of people's heads. She can converse with other psychics and she gets advanced notice of events coming her way. Can shield herself from mental intrusions or attacks. Cleansers can't divine an ability, but she can lash out mentally, almost like the equivalent of infrasound if she's in a rage. She won't cooperate with the Cleanser unit so they don't know how she does it.

Last Date: 04/08/22

Cleanser Interactions: None. Kali can actively shield herself from Cleansers and won't let them beyond her surface thoughts.

Details: To date she will not cooperate with Cleansers.

# **PROJECT THRESHOLD PERSONNEL**

Recommendations: Kali appears stable mentally, though demonstrates a strong defiance to authority when provoked. She is not above ignoring directives or telling people where to go.
